To all that this will concern:  
Competition is an "American Way of Life". Without competition, our world would be a lot different and not in a good way. I choose to have satellite radio because of the choices offered to me for which I pay a fee. No local broadcaster has the right to dictate to me which type of radio broadcast I have to listen to, especially if I pay for the service. I do not have the choices that I have with XM Satellite Radio. I can listen to classical music, the 50's, the 60's, or a mix. I do not have that choice on local broadcast radio without COMMERCIALS. I pay for the XM service because I choose to have radio without commercials.  
I urge the FCC to reject the NAB's attempt to thwart satellite radio service. I believe that CHOICE is part of the "American Way of Life".
